Malcolm Thomas, President
MARHOC, INC.
P.O. Box 1209
Alvin, TX 77512

Dear Malcolm:

I apologize for the delays we have experienced, over a year, but the red tape and other hurdles slowed us considerably. We are way behind any schedules we could envision. Per our earlier discussions, this will confirm our intent to use various models of your Air Purification, Smoke and Odor Removal Systems as appropriate in our planned dhome home, cattle, swine and poultry raising building systems. These include your automated and portable systems. We also plan to install those particular systems you have produced for automotive exhaust cleaning systems at our first opportunity.

We believe you have world-class systems that will, we hope and believe, demonstrate outstanding superiority over any competing systems.

We intend to implement such uses as soon as we complete our buildings and obtain your systems.

Sincerely,

Melvin A. Wotring
President and Chief Design Engineer
